

# 61st and Radial Storm Sewer

## PROJECT SCHEDULE:

- Design – 2022-2024
- Bid Advertisement – 2024
- Construction – 2025-2027

## PROJECT LOCATION:

- In the 61st Street corridor in the Cole Creek Basin

**The 61st and Radial Storm Sewer Project provides sewer separation for a portion of the residential area located to the west of 61st Street between NW Radial Highway and Pratt Street.**

The main goals of this project are to reduce CSOs and separate stormwater deriving from the separated portion of the Benson business district from the combined sewer that snakes through the residential area located to the west of 61st Street. This will significantly reduce the potential for basement backups and street flooding in the area.
